

# City of Pleasanton

## Commends

### Redgwick Construction Company

*This 25th day of June, 1992*

**WHEREAS,** The Pleasanton Centennial Celebration Committee recognizes the Arroyo Trails Valley Avenue Undercrossing as the first major completed portion of the Arroyo Centennial Trails Project; and

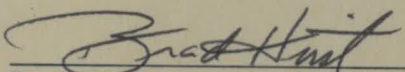

**WHEREAS,** The Arroyo Trails Valley Avenue Undercrossing Project, with its Rotarian constructed world class 184 foot retaining wall and 320 foot long asphalt pathway, required countless hours of arduous volunteer labor and the generous donations of materials and skilled labor from a broad cross section of highly respected businesses and contractors; and

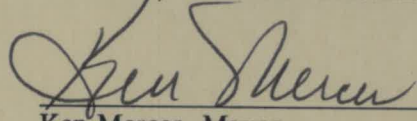

**WHEREAS,** Don Redgwick and the Redgwick Construction Company, with exceptional cooperation, provided the highly competent foreman and crew that successfully undertook the herculean task of repairing the bank of the arroyo, removing the riprap from the pathway area and replacing it in other needed areas, and grading the pathway to prepare the site for other craftsman and volunteers all within four days; and

**WHEREAS,** Don Redgwick and the Redgwick Construction Company not only graciously accommodated change orders within the four day window provided for this work, they unselfishly donated a portion of their labor and equipment costs.

**NOW, THEREFORE, BE IT RESOLVED:**

The Pleasanton Centennial Celebration Committee warmly thanks and sincerely commends Redgwick Construction Company's participation in the highly successful project coalition resulting in the completion of the superb Centennial Trails Valley Avenue Undercrossing, the first step in making the Arroyo Centennial Trails vision a reality.

  
Brad Hirst  
Chairman, Pleasanton Centennial Celebration

  
Ken Mercer, Mayor
